

Perceived Performances

I'M JUST MARCO

AGENDA

- definition of PP
- why waiting sucks?
- **>> *demo time* <<**
- PP at the office

$$PP = f(Pf, UX, Ex)$$

PP = perceive performances

Pf = performances

Ex = expectations

UX = user experience

nobody likes to
WAIT!

Demo Time!

let's hope it'll work!

PP at the Office

PP at the Office

demo 24/7

PP at the Office

create bugs

PP at the Office

say “NO”

thank YOU!
